Fictional person. This résumé exists only to test FamilyVault.

Profile

Final-year computer science student who enjoys turning messy data into clear answers. Looking for a graduate role in data engineering or analytics, starting July 2026.

Education

B.Sc. Computer Science — Fergusson College, Pune — 2023 to 2026 — CGPA 8.7 / 10

Higher Secondary Certificate (HSC), Maharashtra State Board — 2023 — 91.2%

Experience

Data Analyst Intern — Specimen Analytics Pvt Ltd, Pune — May to July 2025. Built weekly sales dashboards in Power BI, automated a manual reconciliation in Python that saved the finance team six hours a week, and documented the data model for new joiners.

Projects

Family budget tracker: a Python and SQLite app that categorises bank-statement lines and flags unusual spends.

Bus arrival predictor for Pune routes using open data and a gradient-boosted model; presented at the college tech fest.

Skills

Python, SQL, pandas, Git, Power BI, basic React. Languages: English, Hindi, Marathi.
